## LOCAL NEWS.

Phases of the Moon for the month of July. PREPARED BY CAPT. DAN'L SMITH

WATCH TIME.

OUR thanks are due to Bennett, of the News Depot, for late papers and magazines.

full files of late papers.

By the Steamer Montana, the U. S. Minister, General E. M. McCook arrived from San Francisco. The General has been away some months. He brings with him his family, whom we are happy to welcome again to Honolulu.

THE U. S. Steamer Molongo, Capt. Simpson, returned from her trip to Kanal last Thursday. She has been away nine days, and visited the ports of Hanalel, Koloa and Waimen.

PERSONAL.-His Excellency C. de Varigov and family sail to-day on the steamer for San Francisco and Europe. Their tour, which is for health and pleasure, will occupy about a year. We wish them a pleasant journey and

Our readers will observe by the advertisement of Mr. May, that he has commenced the grocery business at the old stand of Mr. Savidge. Mr. May was in the same line ten vests ago, and from his knowledge of the trade, we are safisfied that he will obtain a good run of custom.

INSANE. - We are pained to learn that Capt. James M. Green, long a resident of Hopolulu, has recently become insane, while residing in San Francisco, and is now an inmate of the Stockton Asylum. His friends have little hope of his immediate recovery .-

DECEASED. - A letter from New York, dated April 22d, states that Mrs. Ford, first wife of the late Dr. S. P. Ford, died in that city on the 32d. She had been sick for a year past, and during that time had suffered intensely. She was poisoned by drinking

THE MONTANA leaves this afternoon, at four o'clock, with a full freight and a large list of passengers. More freight was offered than she could take, and we hear of one shipper having bought of another, fifteen tons capacity at a premium of two dollars per ton. Mr. Ben. Holladay, Jr., who has spent several months on the islands, returns to San Francisco by her.

FIRE,-The slarm of fire on Sunday afternoon was caused by the burning of a thatched house, known as the Mormon Church, near the Liberty Hall premises. Being in the middle of the yard, it was consumed without setting fire to any other house, although the wind was rather fresh at the time. A few Hawalians, who still cling to Mormonism. have on Sundays frequented the building, and probably the thatch caught fire from

COOLIES .- The Italian ship Pratolongo arrived at the anchorage outside on Sunday last, 52 days from Macao, with 460 Chinese coolies, bound for the Chincha Islands. She touches for fresh provisions and water, and will sail in a day or two for her destination. We understand that her accommodations are ample, and well regulated for the coolies, and no serious sickness has, so far, shown itself among them. The figures at which these coolie contracts have been taken sound rather large to us. They have each received \$100 advance, and are to receive \$4 per month, with food and clothing, and will cost the Peruvian employer from \$350 to \$400 each. Several vessels have lately left Macao for Havana, with coolies who have cost \$200 on board. They are engaged on eight year con-

Accident.-On Monday afternoon, one of the natives employed on the Nuuanu Valley road, met with a painful and serious accident. He was digging out hardpan for the carts, when a mass of rock caved on him, and crushed his leg, breaking the bones and tearing the flesh fearfully. He nearly succumbed under the profuse hemorrhage, but about sundown arrived at the Queen's Hospital, where amputation was performed by Dr. Hillebrand, assisted Drs. McGrew and

OFFICIAL MOVEMENTS.-It will be seen from the Notice under "By Authority," that during the absence of the Minister of Foreign Affairs, the business of that office will be conducted by the Attorney-General, and that the Finance Office is placed in the hands of the Minister of the Interior. His Excellency C. de Variguy has been clothed with powers plenipotentiary, and will, during his stay in Europe, give attention to such modifications of our existing Treaties as may be deemed advisable for the interests of the Kingdom. The visit of the Minister to Europe is a favorable opportunity for this purpose.

THE JAPANESE -So far as we hear, the Japanese are adapting themselves to their new homes very easily and quietly. They are not so hardy as the Chinese, and will require at first a little more care and indulgence until they become acclimated, and also inured to our style of labor. Many of them have seemed to feel at once the change to our warmer climate, but their sickness on the whole has not been severe. Last week, at Kaalaca, one of the best of the gang died. although every attention was bestowed upon him, and his fever did not seem severe. This is the first case of natural death which has occurred among them since their arrival.

OFFICIAL ENTERTAINMENT.-The Chancellor of the Kingdom and Mrs. Allen had the honor to entertain His Majesty the King and Her Majesty Queen Dowager Emma at dinner on Saturday evening. A large number of ladies and gentlemen were present. His Ex. the Minister of Foreign Affairs and Madame de Varigny, His Ex. the Minister of Interior and Mrs. Hutchison, the Attorney General, the U. S. Minister Resident and Mrs. McCook, H. B. M. Commissioner and Consul General, Commander Simpson of U.S. ship Mohango, Col. Spaulding, Acting Consul of the United States, Hop. C. R. Bishop and Mrs. Bishop, the Collector General of Cus- Electoral Cloth, toms and Mrs. Allen.

RELIGIOUS INTELLIGENCE. - On Sunday next, 26th inst., at 10 o'clock A. M., there will be celebrated at the Roman Catholic Cathedral one of the most solemn and imposing ceremonics of the ritual of that Church-the ordination of deacons to the priesthood-when the Rev. Deacon Boniface Schaefer will be ordained priest by his Lordship Bishop Maigret. Rev. Schaefer was or- FOR SALE AT REASONABLE PRICES BY 1.31 dained dencon here about one month ago One of the most interesting features in the ordination to the priesthood is that the canon of the Mass, which is usually said in a low voice, is now read aloud by the ordaining Bishop, accompanied by the newly ordained

forcible illustration of the inborn implicit confidence imposed by some of the Hawaiians in the authority and mana of their chiefs, was seen the other day in the Police Court. An old woman had been stopping up a water she had been directed to do so by chief." The judge was at some pains to explain to the old lady that she, having broken the law in her own person, could not shift the responsibility on any one else, and by way of putting the idea in a clearer manner, asked her, if her chief should order her to kill a man, and she should obey and do so, who would be responsible for the killing? "Why, the chief, of course," was the unhea-

itating reply. SUBSIDY .- The Government has drawn up a form of contract, under the provisions of the law, passed by the Assembly, and will place it, by the steamer, in California for the purpose of receiving bids from such steam companies as may desire to avail themselves of its help, in placing a second steamer upor the route. As we understand the design of the Assembly, this subsidy, though payable in two years, was intended not only to secure steamers for that length of time, but a permanent line. The great obstacle to the establishment of such a line, is the loss attendant upon the beginning of the enterprise, for it believed, that once fairly in operation, the amount of freight to be transported will be sufficient to make it a paying business. It is as much as this nation can afford to do to subsidize the opening years, and to place the line on such a basis, that it can afterwards make its way against competition. Could the Assembly have felt sure that the subsidy offered would secure a permanent line, we believe that hardly a voice would have been raised against its passage.

DREDGING THE HARBOR.—The Legislature having voted the necessary funds, the dredge boat was again put into commission and commenced this week to excavate the barbor at the foot of the old Custom House wharf. The mud is dumped into cars which are tow ed across the harbor in scows, to the Esplanade, where a gang of prisoners haul them up on a railway laid across the Esplanade and out into the shallow water between the Court House and Foster's ship yard. During the dull season which is now upon us, the working of the dredge gives a cheerful im-
